Profile Summary

Computer Science undergraduate with hands-on experience in MERN Stack development, strong problem-solving and programming skills, and knowledge of Data Structures Algorithms. Passionate about Artificial Intelligence and Machine Learning, with additional expertise in Data Analytics, SQL, and data visualization. Looking for a software development opportunity to apply technical skills, build scalable solutions, and contribute to real-world projects.

Skills

Programming: Java, Python, SQL, JavaScript
Frontend: HTML, CSS, React, Angular
Backend: Node.js, Express.js, Middlewares, RESTful APIs
Tools: Power BI, Tableau, Snowflake (Basics), Linux, Git, GitHub
Data & AI/ML: Machine Learning, Gen AI, Agentic AI, RAG, Prompt Engineering
Cloud & Databases: AWS, MySQL, MongoDB, RDBMS
Analytical Knowledge: Statistics, Data Integration, Vectors, Agile Methodologies
Core CS: DSA, OOPS, DBMS, Computer Networks, Operating Systems

Projects

Wanderlust — Full-Stack Travel Listing Web Application MERN

- Developed a full-stack travel listing platform with 4 CRUD operations and 10+ RESTful routes, integrating MongoDB/Mongoose for persistent data management and EJS for dynamic server-side rendering.
- Implemented user authentication, session management and authorization middleware using Passport.js and Express Session to secure listing creation, editing and deletion.
- Designed 2 interconnected MongoDB data models for listings and reviews with Mongoose references and population, incorporating 1–5 star ratings, Joi validation across 5+ attributes, and centralized error handling.

Loan Analytics and Applicant Risk Profiling Power BI, DAX

- Designed an interactive Power BI dashboard to analyze loan defaults, distribution, and applicant demographics.
- Analyzed loan amount by purpose, employment duration, and age groups using DAX functions.
- Built dashboards calculating median loan amounts using MEDIAN and MEDIANX functions.
- Visualized loan distribution across age groups, marital status, and education type.
- Ensured data accuracy through cross-validation with original datasets.

Portfolio - My portfolio React

- Developed a responsive personal portfolio website using React.js and Vite, showcasing projects, technical skills, achievements, resume, and professional profiles through a modular, component-based architecture.
- Implemented reusable React components and Context API-based theme management with responsive layouts, interactive navigation, social integrations, and optimized production builds for a professional user experience.

Education & Achievements

Mahatma Gandhi Institute of Technology, Hyderabad	2022 – 2026
B.Tech in Computer Science & Business Systems	CGPA: 7.74/10

Sri Chaitanya Junior College, Hyderabad	2020 – 2022
Board of Intermediate Education, Telangana	Percentage: 95.9

- Co-ordinator of Sports Club, Nirvana 2024 Symposium.
- Conducted a UI/UX Workshop for 100+ students.
- Scored a total of 108/360 in JEE Advanced 2022.
- Solved 100+ DSA problems across various platforms.

Certifications

- Data Analytics Job Simulation
- Generative AI
 - Learned machine learning algorithms and their working.
 - Gained practical knowledge of open-source tools.
